

On behalf of my family, I ask that serious, heartfelt consideration be given to not making it more difficult for family-oriented radio stations, such as K-LOVE, to be heard. The content of this station has provided such wonderful grounded, moral programming and provides a positive balance to the alternative listening options. The effect if this station were displaced by an LPFM broadcaster could serve to air more of what we are trying to get away from - commercialized, pushing the boundaries programs. This may be the only good, clean entertainment and message some people will hear. Please allow the freedom of religion to continue.
